Add Bluetooth to Your Home Entertainment System

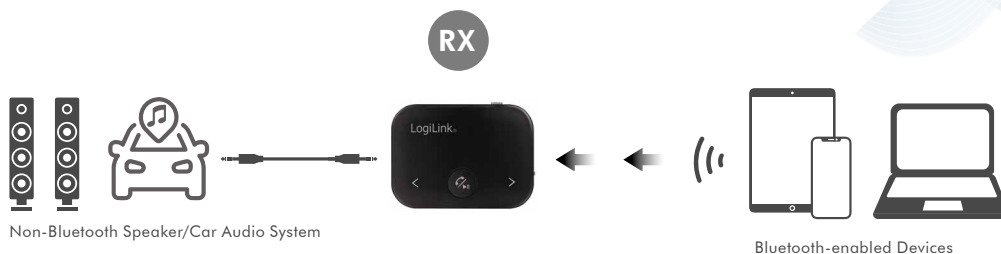

A convenient way to add Bluetooth streaming functionality to your home entertainment system or stream music to your Bluetooth headphones and speakers. Upgrade your audio gadgets, especially if you have older equipment that you don't want to let go of just yet.

Bluetooth Transmitter and Receiver

The Dual Modes - Transmitter and Receiver create wireless audio. Simply flip the switch on the unit to enable either the Transmitter(TX) or Receiver(RX); keep your devices connected and enjoy the benefits of cable-free music.

Add a Bluetooth Transmitter to your Non-Bluetooth devices.

Add a Bluetooth Receiver to your Non-Bluetooth speakers and car audio systems.

Never Lose a Connection

Bluetooth 5.0 with integrated A2DP technology allows for faster pairing without dropping the signal, providing a stable and seamless listening experience.

Talk on the Phone Hands-Free

High quality hands-free calling with built-in microphone effortlessly switches between music and incoming calls, which makes catching up with family or friends a breeze. (Receiving mode only)

Stream Audio For Hours

Features a built-in rechargeable battery that gives you 10 hours non-stop music on a full charge.

Works on a Wide Range of Audio Equipment

Supports all audio devices with 3.5mm jacks such as headphones, headsets, speakers, car audio systems, etc. Make your ordinary music life extraordinary.
