RJ45 Port Blocker

Art. No.: **MP0042**
MP0043

This product helps to protect against un-authorized access to a network or system, as well as preventing unintentional or malicious damage to ports. It can also act as a visual cue, showing inactive or disconnected ports.

It can quickly block open network ports and prevent users from connecting cables, devices or inserting foreign objects without permission.

The lock secures itself to the RJ45 port and can be removed with the attached key again. It locks with the front panel of the RJ45 port inside the housing prevent it from being simply pulled out.

Features:
» Block physical access to RJ-45 Network ports
» Quick, easy and simple to use
» Prevent damage to ports
» Visual security deterrent
» Ideal to use in schools, offices, public sector environments
» Color: Transparent Red

Insert the Key with blocker to a RJ45 port
